

# Premium Sealing Technologies

## **FEL-PRO** **PERMADRYPLUS**

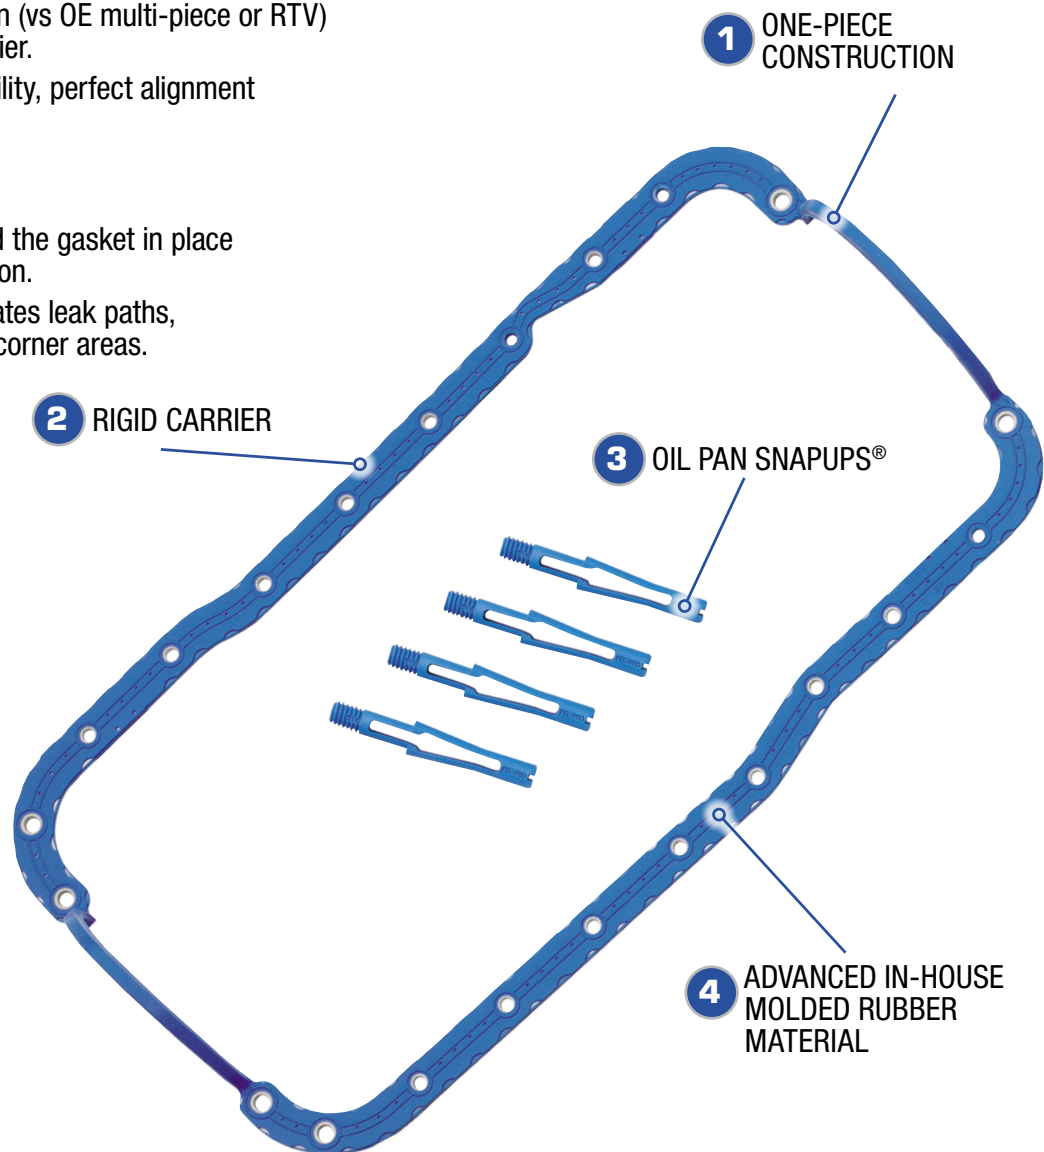

### Oil Pan Gaskets

#### Key Innovations

- 1:** One-piece construction (vs OE multi-piece or RTV) makes installation easier.
- 2:** Rigid carrier for durability, perfect alignment and instant fit.

#### Additional Features

- 3:** Oil pan SnapUps® hold the gasket in place for quick bolt installation.
- 4:** Silicone rubber eliminates leak paths, especially in problem corner areas.

**SALES TIP:** Fel-Pro PermaDryPlus® gaskets' one-piece construction makes them easier and faster to install, and delivers a more durable seal than the OEM design.

**OPPORTUNITY:** Fel-Pro offers the best sealing technology across every leak repair gasket and PermaDryPlus eliminates the need for RTV and contact adhesive.
