

Premium Sealing Technologies

FELPRO **PERMADRYPLUS**

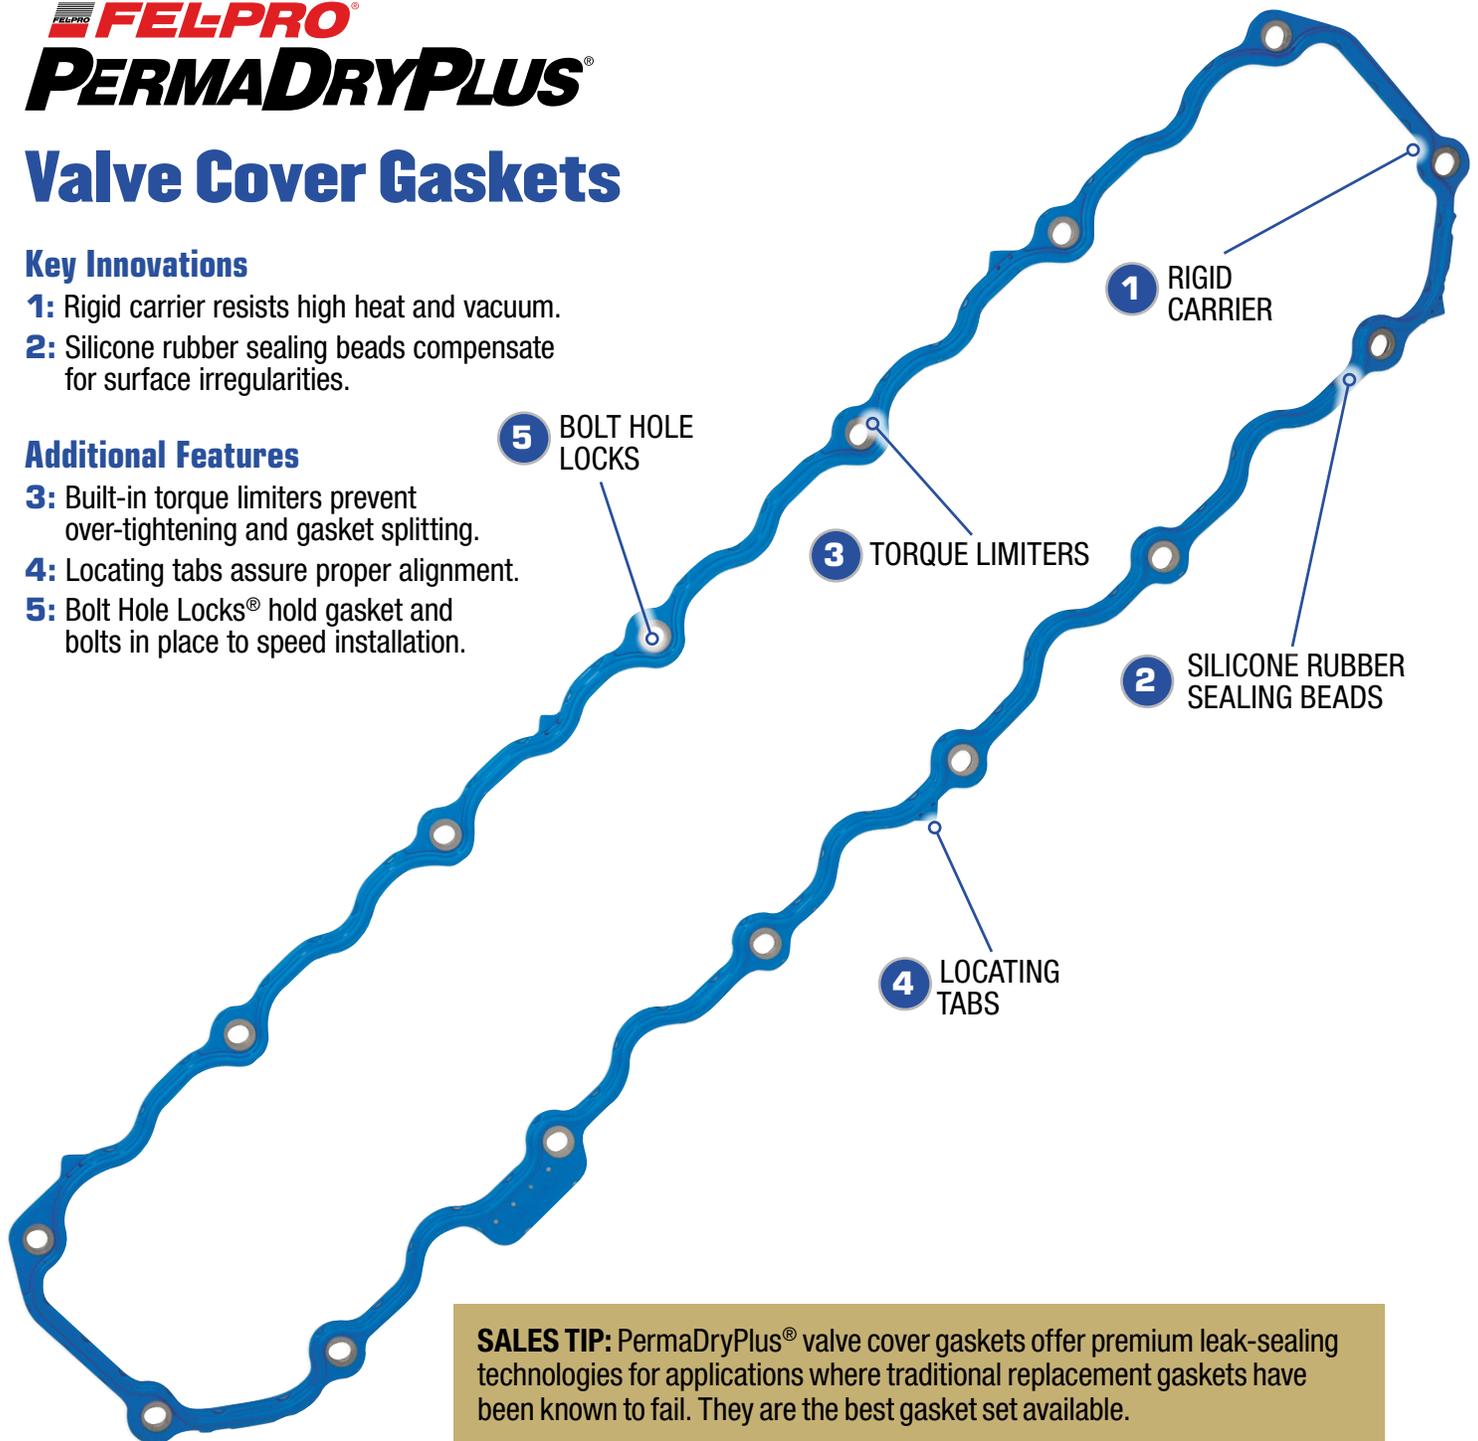

Valve Cover Gaskets

Key Innovations

- 1:** Rigid carrier resists high heat and vacuum.
- 2:** Silicone rubber sealing beads compensate for surface irregularities.

Additional Features

- 3:** Built-in torque limiters prevent over-tightening and gasket splitting.
- 4:** Locating tabs assure proper alignment.
- 5:** Bolt Hole Locks® hold gasket and bolts in place to speed installation.

SALES TIP: PermaDryPlus® valve cover gaskets offer premium leak-sealing technologies for applications where traditional replacement gaskets have been known to fail. They are the best gasket set available.

OPPORTUNITY: Upsell to PermaDryPlus® gaskets, knowing they are specifically designed for the repair environment, reduce installation time, and provide reliable fit and superior sealing performance in all applications.
